

Features and Benefits

Item	Description
<p>Engine</p> <p>Application: All SRViper models, except early-build</p>	<ul style="list-style-type: none"> • New Cylinder Head Cover ✓ Oil cap repositioned. ✓ Cover now made of aluminum. ✓ Cover fasteners reduced from 6 to 4. ✓ Additional bosses added so cover casting can have multiple application uses.

The diagram shows a top-down view of a cylinder head cover. Callouts include:

- 'Oil-cap position changed' pointing to a circular feature on the left side.
- 'Additional boss' pointing to a rectangular protrusion on the left side.
- 'Fastening points' pointing to four circular locations on the right side.
- Another 'Additional boss' callout points to a protrusion on the bottom edge.

Item	Description
<p>Engine</p> <p>Application: All SRViper models, except early-build</p>	<ul style="list-style-type: none"> • New Valve Cover Gasket ✓ Gasket accommodates engine changes. ✓ Gasket material: new rubber compound only.

The diagram compares two valve cover gaskets. On the left is the 2015 model, and on the right is the 2016 model. A large arrow points from the 2015 gasket to the 2016 gasket. The 2016 gasket has a more complex, irregular shape with several additional protrusions and recesses compared to the simpler 2015 gasket. Arrows point to these specific changes.

2015 2016
