

Caution: Please attach the USB connector to the back of your eXplorist™ GPS receiver prior to connecting AC power and the USB connector into your PC.

Connect your cables and power in the following order:

1. Connect your eXplorist USB connector to your eXplorist unit (Figure 1)

Figure 1

2. Connect your USB connector at the end of the cable to your PC
3. Connect AC power to the eXplorist USB cable
